This book is the second in a series published by BBVA Group as part of its effort to promote and spread knowledge. As such, it is in keeping with our group’s slogan, “BBVA, working for a better future for people.”

For this project, we have sought out the finest researchers and creators worldwide so that, with the greatest rigor and objectivity, and in a language and approach accessible to non-specialists, they can explain and inform us of the advances in knowledge and the subject of the debates that are permanently active on the frontiers of science.

In this second book we have chosen to present a panorama of globalization, a very complex and controversial phenomenon that is characteristic of present-day society and decisively influential in the daily lives of all the world’s citizens at the beginning of the 21st century.*
